

Enforce the Rule: Make Water Available for Meals at School!

Every child has the right to drink free water

Kids from the Rochester City School District have told their parents they're only served milk and want to have water with their lunch

It's the law! Schools have to serve free water with ALL meals!

Together we can enforce the law!

It's time for water stations in every RCSD cafeteria!

**To learn how to get a water station in your school visit us at:
