

HOW TO Get More Signs in Your Neighborhood

Parents from schools 2, 10, and 19 have told Healthi Kids that it is not safe for their kids to walk or bike to school because there are not enough stop signs or school zone signs

Having school warning signs are put before school crosswalks to let motorists know a crosswalk is ahead

A four way stop can help slow down traffic around schools

How to Help

- ▶ Tell us if you'd like the school warning signs
- ▶ Tell us where you would like another stop sign
